

PIAVAL

Supersalone 2021 - Salone del Mobile.Milano

Pav 03 - Stand J18

The Company

"Tradition is not the worship of ashes, but the preservation of fire."
(Gustav Mahler)

Piaval produces chairs, armchairs, sofas, barstools and tables for the contract, hotellerie, naval and health&care sector. Top quality materials, functionality and design are perfectly balanced in each seating collection. Products are designed with a real attention to the customer needs, ensuring that everyone can sit in a chair that best meets their needs and their wellbeing.

Piaval boasts a century of experience in woodworking. 100 years and 4 generations of a single family, marked by passion, strong commitment and constant evolution. An industrialized company, whose expertise, intellectual and manual skills represent the most important values. The in-depth knowledge of materials, the internal production chain, the highly specialized departments, the meticulous quality control, are the key factors of the manufacture process.

Piaval is an authentic expression of the Made in Italy values. An international brand, with strong roots and heart in its territory, that relies on the collaboration with preminent international designers and features important projects all around the world.

Piaval means craftsmanship, design, innovation and sustainable development. The production is the result of a rigorous synthesis of technologically advanced industrial processes, functionality and aesthetics and it is characterized by a deep knowledge of wood.

Piaval thrives on putting itself to the test. To certify the quality and the adoption of accurate control systems at each stage, it is UNI EN ISO 9001:2015 certified. Since 1999, the safety and durability of its products have been certified by CATAS, the most qualified Italian institute for certification, research and testing within the wood and furniture industry. Many models have been certified by ERGOCERT, the ergonomics usability and research body, which attests their conformity to the highest ergonomic and usability standards.

Piaval expresses a strong commitment for a sustainable development. Processing waste is turned into biomass, which is used to produce the 100% of the heating and to power the drying process for the wood raw materials. The solar panel system produces clean energy and helps in the reduction of CO2 emissions. Products are made using environmentally friendly materials and manufacturing processes, respecting natural resources. As the waterbased coatings, selected for being strictly free from Phthalates and azo dyes. The company respects and loves wood. On request, Piaval products can be FSC® certified, made using wood obtained exclusively from protected and controlled forest areas.
