PIAVAL.IT

Nautical rope and colour, to create an **outdoor collection** that celebrates nature and lightness.

Le Foglie evokes the **structure of a leaf** and, through the weave of the rope, the delicacy of its ribbing.

In the backrest, the **ropes are worked at different tensions**. Radiating from a central rib, of the same material, they imprint a curve that makes the seat extremely comfortable and resistant.

The **palette** ranges from sorbet to earthy shades, suitable for every outdoor living space.
